EMERGENCY MONEY RETURNS.

Less Than 10 Per Cent of War Issue Remains Outstanding.

There is less than 10 per cent, or exactly \$38,096,358, still outstanding of the total amount of emergency currency issued since the outbreak of the European war. This information is contained in a statement issued by Assistant Secretary Malburn of the Treasury Department, in charge of finances. The amount outstanding is less than 40 cents per capita and only a little more than 1 per cent of the total amount of money in circulation in the United States. It is pointed out by Mr. Malburn that the fears entertained that the large issue of emergency currency put into circulation after August 1 last year would unduly inflate the circulation and would not be promptly retired may now be dissipated from mind.

"Without doubt," he concludes, "the issuance of this currency enabled the country to pass through the troublous times succeeding the outbreak of the European war last summer with much less strain than has attended financial disturbances of less severity in the past, and it is shown how advantageously the federal reserve notes may be used in the future."

CALIFORNIANS BOOST SAN FRANCISCO FAIR

State Association of District Holds Annual Banquet at Raleigh Hotel and Hears Native Land Praised.

"On to San Francisco to the world's fair," the slogan of the California State Association of the District of Columbia, has taken on a new meaning to the members of that organization as a result of the boost given the exposition at the association's annual banquet in the Raleigh Hotel last night. San Francisco, the exposition, in short, all California, was discussed, while more than 150 guests gave vent to frequent applause over the tributes paid their native state.

Representative John E. Raker of California, who was presented by M. F. O'Donoghue, president of the association, presided as toastmaster. He read a telegram from President Charles C. Moore of the exposition extending a special invitation to Washington to visit San Francisco during the big international exhibition. All Californians were urged by Mr. Raker to boost their native state and assist in every way to make the exposition a success.

State Praised in Speeches.

Others who spoke were Representative Denver S. Church of "California," Representative Julius Kahn of "The Panama-Pacific Exposition," Representative William Kettner of "The Exposition," San Diego, John Barrett, director general of the Pan-American Union, of "California and the Southern American Republics," and C. J. Blanchard of the reclamation service, who showed stereoscopic views of the exposition.

All the speakers declared that California is one of the biggest subjects which any American can discuss; told of the development of this state and what it has contributed to American civilization, and referred to the natural beauties of the Pacific coast and the artificial beauties of the exposition which will be seen by visitors to the fair.

A feature of the banquet was the singing of a number of native songs by the Hawaiian trio, consisting of Harry K. Gilmore, Stephen L. Desha and John Desha. Miss Audrey Harvey and Miss Elizabeth Leckie also sang.

Whales Off Virginia Coast.

A big school of whales off the Virginia capes was an unusual sight enjoyed by the passengers and crew of the Merchants and Miners' liner Merrimack, which arrived at Baltimore yesterday from Savannah. When the Merrimack passed the whales they were playing, diving and spouting streams of water high into the air in a most amusing manner. There were six or eight of them in the school. It is said that the sight of whales off the Virginia coast at this season of the year is out of the ordinary, though in summer they are frequently seen by passing ships.
